

The NTU "Public Health E-paper" welcomes submissions from YOU!

Covid-19 has ravaged the world since the end of 2019. The pandemic is gradually under control due to all walks of life running around to prevent the epidemic. This is especially true for public health alumni who are sticking to their posts in different types and levels of healthcare systems. These experiences and memories are worthy of writing and recording. For this reason, the NTU Public Health E-paper creates the column "Frontline Experience in Epidemic Prevention" as a communication platform, inviting our alumni to share their stories.
