

Conference Reflection Report

It is truly a great honor for me to have the opportunity to attend an International conference in the United States, something that I never imagined I would be able to experience. I would like to express my deepest gratitude to Professor Wu, who helped make it possible for me to participate in this conference. I am also deeply thankful for the scholarship support that my expenses during the conference in the United States.

This was my first conference experience. In addition to presenting the research that I conducted, I was also given the opportunity to serve as a session chair for my session. This was both an honor and a very worthwhile experience, leaving a deep and lasting impression on me. During the conference, besides presenting my research and serving as a session chair, I was able to listen to many presentations by other researchers. These presentations provided valuable insights into how advanced the current research is and the until where researcher now developed. Moreover, I had the chance to meet new researchers, who can expand my network. I attended the conference with several colleagues from the same lab. Through this shared experience, my relation with them also became closer.

Oral Presentation and as Session Chair:
